Education

Durham University

BSc Finance

Durham

09/2026 - 06/2029

Holy Cross College

A-levels: Mathematics (A), Computer Science (B), Physics (C)

Bury, Greater Manchester

09/2024 - 06/2026

Cambridge University

STEM SMART Programme

Cambridge

01/2025 - 05/2026

- Tri-weekly extra & super curricular STEM problem-solving and tutoring sessions.
- Cambridge University summer school and lecture sessions.

Relevant Experience

The Derby High School

Mathematics Mentor/Tutor

Bury, Greater Manchester

11/2024 - 05/2025

- Partnered with The Derby High School to provide maths mentoring to GCSE students after college every week.
- Conducted both 1-to-1 and group sessions containing up to 12 pupils.
- Focused on difficult concepts, notorious for holding students back from grades 8 and 9.

TechMates

Technical Help Assistant

Wigan, Greater Manchester

08/2024 - 02/2025

- Taught and assisted in group and 1-to-1 sessions on how to use different technologies in the context of improving people's lives and businesses.
- Created personalised plans for people to learn how to use different software independently.
- Collaborated with a team to develop simple guides for common technical problems.

Government Dept. for Science, Innovation, and Technology

Work Experience

Salford, Greater Manchester

06/2024 - 07/2024

- Attended briefings and meetings, acquiring a core understanding of government procedures including the tender process, procurement planning, and public-private partnerships.
- Provided useful insights into the implementation plan for the National Underground Asset Register (NUAR).

Awards & Certifications

UKMT Senior Mathematics Challenge 2024 and 2025 – Silver Award Achieved in Both Years

IBM – Data Science Tools

IBM – Data Science in Practice

KPMG U.S. – Career Catalyst: Advisory

Duke of Edinburgh Gold Award 2026

Projects

Implied Volatility Surface - Developed a risk-valuation tool using Python which ingests live options and underlying prices via API, numerically inverts the Black-Scholes model to solve for implied volatility, and filters for liquidity to construct a volatility surface for risk assessment.

"Silicon vs. Sentiment", a Case Study on SK Group - Completed independent equity research contrasting SK Hynix's semiconductor fundamentals with SK Telecom's market positioning; built financial analysis and valuation narrative.
