Education

Durham University — Durham
BSc Finance (Hons) — 09/2026 – 06/2029

Holy Cross College — Bury, Manchester
A-Levels: Mathematics (A), Computer Science (B), Physics (C) — 09/2024 – 06/2026

- Built a recruitment system in VBA, Access and SQL, with dashboards that tracked candidates, employers and consultants, as computer science coursework.

Cambridge University — Cambridge
STEM SMART Programme — 01/2025 – 05/2026

- Worked through STEM problems three times a week and explained the solutions in tutoring sessions.
- Attended the Cambridge STEM SMART summer school and lectures.

Experience

The Derby High School — Bury, Manchester
Mathematics Mentor & Tutor — 11/2024 – 05/2025

- Mentored GCSE maths pupils every week after college, one-to-one and in groups of up to 12, focusing on the topics that blocked grades 8 and 9.
- Found where each pupil was stuck, then explained the next step in plain language.
- Kept several pupils moving in the same hour and decided who needed the time first.

TechMates — Bury, Manchester
Technical Help Assistant — 11/2024 – 05/2025

- Taught group and one-to-one sessions on software for everyday tasks and small businesses, and wrote a separate plan so each person could carry on without help.
- Turned problems that kept coming up into short written guides.
- Checked the steps with the team before a guide was handed out.

Government Department for Science, Innovation, and Technology — Salford, Manchester
Work Experience — 06/2024 – 07/2024

- Attended briefings on tendering, procurement planning and public-private partnerships, and kept notes on the process.
- Followed the implementation plan for the National Underground Asset Register and raised points from those briefings.

Awards & Certifications

UKMT Senior Mathematics Challenge 2024 and 2025 – Silver Awards in Both
IBM: Data Science Tools, Data Science in Practice
KPMG U.S. – Career Catalyst: Advisory
Duke of Edinburgh Gold Award 2026

Projects

Implied Volatility Surface – Built a Python tool that takes live option and share prices, drops illiquid prices, and solves for implied volatility from data that can be checked.
"Silicon vs. Sentiment", a Case Study on SK Group – Set SK Hynix's semiconductor results next to SK Telecom's market position, with the figures and the valuation in one document.
